

# Solus Success Stories

## Indian Oil Corporation (IOCL)

Indian Oil Corporation (IOCL) is among the first Indian enterprises in the Fortune 'Global 500' list. It has 6 Refineries and a country-wide marketing and distribution network.

IOCL's Gujarat Refinery at Baroda is geared up for capacity expansion to 18 MMT per year. It has a strong safety and security management system and infrastructure. Accessed by 5000 workmen and about 3000 employees and workers daily, Gujarat Refinery chose Solus to manage its Access Control and Security Operations.

### Problem

- 2000 + Daily Visitors, Contract Employee Inflow
- No accurate record maintenance of movements of contract employees/visitors
- Access Control
- Hardware and Software Integration issues
- Multiple vendors for management

### Solution

- Flap Barriers with Biometric Access lanes
- Access Control for Contractors
- Thin web client to enrol fingerprint
- Biometric readers installed at all locations
- Integrated Security management

	<b>Locations</b>	4
	<b>Flap Barriers</b>	17
	<b>Readers</b>	40
	<b>Contract Employees &amp; Visitors</b>	2000+
	<b>Since</b>	2014
